OUR MODULES

With our expertise we have developed most advanced, simplified and integrated modules.

Admin Panel
User Management

Various admins are created according to hierarchical authority levels. For example, Super-Admin , Department Admins, Specific-Admins for various processes like admission, inventory, library, accounts, transport, & payroll etc. User Management enables creation of individual profiles for various user types such as Faculties, HODs, Students, Parents.

Library

This module allows users to Reserve, Issue and Return Books. Besides this, vendor details can be viewed. Also, books & shelf management is provided here. As per user type actions can be set and transaction record details can be viewed for all users.

Training & Placement

This module enables Campus-based placement activities. TPO can register companies on campus, assess candidates & view eligible & shortlisted students. Students get an access to view & apply for Purestudy Jobs through our fresher dedicated placement portal. Various companies can view students profiles & contact eligible students directly.

Attendance

This module enables a Faculty to mark self and students attendance, take necessary actions against students & approve/disapprove student leaves. Datewise, Subjectwise & Semesterwise students report can be generated.

Report Generation

Various reports can be generated & printed according to the filters required such as user reports, session related reports, account related reports, library – inventory – payroll – admission – fees related reports, etc.

Admission

This module enables online admission process right from filling up of admission forms and documents to receipt generation and section allocation etc. Internet payment gateway allows on click secure fee payments.

Session Management

This module defines the course wise session details for faculties as well as students enabling them to maintain their daily and semester schedules along with report generation.

Course Management

This module defines the entire basic structure of an educational institute. Every detail of courses offered at the institute are added here.

Question & Answer Forum

It is an open discussion forum where users can post new questions and comment on existing discussion threads.

Feedback & Quality Management

This module enables students to give feedback and comment on sessions conducted and also give ratings anonymously to the respective faculties.

Project Management

This module enables execution of end to end processes from allocation of project & weekly reporting to final submission simplifying work load of management bodies.

Communication

Unique internal mailing system which enables individual as well as bulk mails is given to all users for ease of communication. An inbuilt notification system is provided for all users.

Assignment

This module enables Faculty to create assignment for students & give feedback on submitted assignments. Whereas, students can upload their assignments.

Inventory

This module enables complete management of the inventory/stock needs of an educational institution.

Hostel

This module enables entire Hostel management including student registration, checking for vacancy, room allocation, fees management and building management.

Payroll

This module allows management of information about the staff leaves, salary, advances, expenses, attendance information for all type of staff.

Account

This module enables all finance related activity related to academic institution, right from admission process to releasing vendor cheques and salaries along with utility bills to defining budgets etc.

Certificate

Students can apply for and get different certificates like leaving, bonafide, library card, i-card & bus pass from here.

Examination

In this module various exams are created, arrangement of seat numbers is done, marksheets are created, internal exam & marksheet records are maintained.

Transport

This module enables all activities related to transport department like defining bus routes, fares, bus

maintenance, etc are carried out here. Students can select a bus route and apply for bus pass by paying fees online.
